 - 9.2.1.1. Construction includes, residential additions, structural renovations, septic system work, lot clearing, patio and deck construction, sidewalks, fence, shed, garage, pool, yard sale. - 9.8.3. The Association will charge a \$30.00 fee for the issuance of a Lot Clearing permit. Lot clearing and overall landscape plans must comply with the following:
- a) The 5' road frontage of all properties should be cleared of trees and brush and maintained accordingly. The Association requests members to help maintain this area to reduce Association expenditures. b) No branches or brush shall be allowed to encroach upon the roadways or 5' road frontage of the Association. Standard mowing of the road frontage is provided, at no additional cost to the Member, by the Association maintenance department.

If a One-acre lot was initially clear cut, it would require the planting of 20 or more shade trees to comply. Minimum spacing of planted shade trees must not be less than 30' on center to factor into the canopy minimum requirement (although tighter planting patterns are not prohibited). Species and specifications of planted trees under this section of the rules and regulations must be submitted to the Building and Planning Director for approval.

- 9.8.10. In the event that Penn Forest Streams Lot Owner Deed Restrictions or Penn Forest Streams Rules and Regulations are more restrictive than the Penn Forest Township building code, the Penn Forest Streams Lot Owner Deed Restrictions, Rules and Regulations take precedence.
- 9.9. Homeowners must have a 911 sign in compliance with Township, County, and State law bearing 911 address of residence at the end of their driveway to assist emergency vehicles in finding the property.
